

**HCCI Advanced Applications of Home-Based Primary Care™
Virtual Workshop
Agenda – June 24-25, 2021**

GOALS AND LEARNING OBJECTIVES

This two-day workshop is designed for clinical providers and practice managers/operations staff with some prior experience in providing home-based primary care (HBPC) services and who are seeking to advance their knowledge, skills, and productivity. Case-based sessions focus on higher-level topics, e.g., advance care planning, prognostication, care coordination and transitions of care, caregiver support and challenging clinical issues such as dementia and polypharmacy. Instruction will include video simulation of procedures commonly performed in the home. Also featured are tips and strategies related to coding and documentation, workflow and staff productivity, telemedicine, and demonstrating the value of HBPC.

Upon completion of this workshop, learners will be able to:

- Discuss optimal care and management strategies through challenging home-based primary care (HBPC) cases, including patients with dementia, acute/urgent issues in the home.
- Assess evidence-based practices for medication management, identify potential pitfalls and dangers of polypharmacy, discuss a structured approach for de-prescribing and review strategies for maximizing adherence.
- Apply optimal practices in coordinating the care of homebound patients during transition, including handoffs, medication reconciliation and collaboration with community agencies.
- Manage difficult conversations with patients and family around advance care planning, serious illness communication and prognostication.
- Describe the importance of caregiver support, as well as the screening tools and resources that can be utilized for caregivers.
- Identify billing opportunities and documentation requirements beyond the normal E/M codes and apply strategies for implementing these services into daily practice.
- Compare various staffing models for HBPC and examine opportunities for improving workflow and efficiency.
- Examine various clinical scenarios that support or don't support the use of telemedicine (e.g., virtual visits, virtual check-in, remote patient monitoring) with homebound patients.
- Describe the steps involved in performing common procedures required in HBPC, including tracheostomy tube exchange, gastrostomy tube removal and replacement, wound care, and knee joint aspiration and injection.

HCCI reserves the right to modify the schedule and faculty assignments as needed.

HCCI Advanced Applications of Home-Based Primary Care™ Virtual Workshop Agenda

THURSDAY, JUNE 24, 2021, 8:30am – 4:45pm CST	
Time	Sessions
8:30 – 9:20 am CST	Welcome, Introductions, and Ice Breaker <i>(50 min)</i>
9:20 – 9:50 am CST	Session 1: Home-Based Primary Care = Value- Based Care <i>(30 min)</i>
9:50 – 10:35 am CST	Session 2: Care Coordination and Transitions of Care <i>(45 min)</i>
10:35 – 10:45 am CST	Break <i>(10 min)</i>
10:45 – 11:30 am CST	Session 3: Enhancing Productivity and Reach through Telemedicine <i>(45 min)</i>
11:30 am – 12:15 pm CST	Session 4: Medication Management for Frail, Elderly Patients <i>(45 min)</i>
12:15 – 1:00 pm CST	Lunch <i>(45 min)</i>
1:00 – 1:35 pm CST	Session 5: Workflow Efficiencies <i>(35 min)</i>
1:35 – 2:20 pm CST	Session 6: Management of Advanced Dementia and Behavioral Disturbances in the Home <i>(45 min)</i>
2:20 – 2:50 pm CST	Session 7: Supporting Caregivers in a Home- based Setting <i>(30 min)</i>
2:50 – 3:00 pm CST	Break <i>(10 min)</i>
3:00 – 3:45 pm CST	Session 8: Prognostication, Advance Care Planning, Communication <i>(45 min)</i>
3:45 – 4:30 pm CST	Session 9: Self Care/Avoiding Burnout <i>(45 min)</i>
4:30 – 4:45 pm CST	Open Q&A / Wrap-Up / Adjourn <i>(15 min)</i>

HCCI reserves the right to modify the schedule and faculty assignments as needed.

HCCI Advanced Applications of Home-Based Primary Care™ Virtual Workshop Agenda

FRIDAY, JUNE 25, 2021, 8:30am – 4:45pm CST	
Time	Presentation Title
8:30 – 8:45 am CST	Welcome Back & Day 1 Review <i>(15 min)</i>
8:45 – 9:45 am CST	Session 10: Quantifying the Value of Your Practice <i>(60 min)</i>
9:45 – 10:15 am CST	Session 11: HCC Scoring for House Calls <i>(30 min)</i>
10:15 – 10:25 am CST	Break <i>(10 min)</i>
10:25 – 11:25 am CST	Session 12: Wound Care <i>(60 min)</i>
11:25 am – 12:00 pm CST	Session 13: Working with Specialists: When to Treat, When to Refer, When to Consult <i>(35 min)</i>
12:00 – 12:45 pm CST	Lunch <i>(45 min)</i>
12:45 – 1:30 pm CST	Session 14: Evaluating Productivity and Staffing <i>(45 min)</i>
1:30 – 3:15 pm CST	Session 15: Procedures Common in the Home & Coding for Procedures <i>Learners will rotate through all three procedures sessions (35 min each), or they may attend the practice management session.</i>
	A. Gastrostomy Tube Change – video simulation and breakout
	B. Tracheostomy Tube Change – video simulation and breakout
	C. Joint Aspiration and Injection (Knee) – video simulation and breakout
	D. Practice Management (keep non-clinical track in main room) – open Q&A
3:15 – 3:25 pm CST	Session 15 (cont'd): Coding for Procedures <i>(10 min)</i>
3:25 – 3:35 pm CST	Break <i>(10 min)</i>
3:35 – 4:30 pm CST	Session 15: Advanced Coding and More Ways to Sustain Your Practice <i>(55 min)</i>
4:30 – 4:45 pm CST	Open Q&A / Wrap-Up / Adjourn <i>(15 min)</i>

HCCI reserves the right to modify the schedule and faculty assignments as needed.
