**Daily Dilemmas in Home-Based Primary Care
Thursday, October 22, 2020**

The American Academy of Home Care Medicine (AAHCM) has partnered with Home Centered Care Institute (HCCI) to offer a preconference that includes a deep dive into areas critical to a successful home-based primary care practice. A career in home-based medical care comes with many rewards. It is also not without challenges. This preconference is designed to help the entire home-based medical care team navigate and resolve some of the daily dilemmas faced when caring for frail, multicomplex homebound patients. Through lectures, panel discussions and question-and-answer sessions, our faculty of national experts will help you to elevate the care you provide to your patients, as well as to enhance your practice’s office operations.

Session I – Clinical Challenges: 8:30 am - 12:30 pm ET

Learning Objectives:

- Identify the various social determinants of health that can contribute to patients being homebound and impacted by multiple co-morbidities
- Manage psychiatric challenges and behavioral disorders in homebound patients
- Discuss the process of dismissing non-compliant patients from your house call program and the impact this can have on staff
- Describe how to conduct effective advance directive discussions in the home

TIME	TOPIC	FACULTY
8:25 am - 8:30 am ET	Welcome & Introductions	HCCI Staff
8:30 am - 9:15 am ET	Addressing the Impact of Social Determinants of Health (SDoH) on Your Homebound Patients	Rachel Zimmer, DNP
